# Lesson 7 Phonics Workbook

# Teaching notes for parents

This book contains all of the worksheets for Lesson 7 from [www.phonics.com](http://www.phonics.com).

There are three worksheets for each of the featured phonemes in the lesson. The activities are designed to reinforce and extend the knowledge that has been learned from the Lesson 7 Soundcards. The Soundcards are the first stage of each lesson. Your child should watch and listen to a single Soundcard slideshow for one phoneme before attempting the corresponding activity pages. The slideshow sounds out the phoneme (or sound) and includes examples of the sound's usage, such as:

1. At the beginning of a word (initial)
2. Within a word (medial)
3. At the end of a word (final).

The Handwriting activities are for writing practice of the phoneme on its own and within words. Forming these letters is an important part of the teaching process and should always be completed before moving on to the next phoneme in the lesson.

The Revision activities at the end of the book are written to include all of the Lesson 7 phonemes.

Answers for every page are included at the back of the book. There are 7 downloadable workbooks — one for each of the lessons on [www.phonics.com](http://www.phonics.com).
